

About these Essays Writing is an art form requiring attention to what is beautiful. Therefore, writing must melt aesthetics with technique. In the essay, writing can become very economical. Thoughts can be concisely put. My love of the essay form grew from a realization that less is beautiful. The subjects of these essays are surprisingly simple and intimate subjects with an economy of phrasing and beauty of line. Each is written in an engaging way that has a certain lyricism that can be appreciated as poetic. Even the most mundane subject can be ripe for good essay writing. The best way to learn to write essays is by reading. This selection of essays offers the reader an opportunity to identify what makes a beautiful essay and what is not. Let them be guidelines for writing your own poetic prose using odd subjects and strange language. You will be surprised what you can do with the essay form.
