

Asian Yearbook of International Law: Volume 15 (2009)

Launched in 1991, The Asian Yearbook of International Law is a major refereed publication dedicated to international law issues as seen primarily from an Asian perspective, under the auspices of the Foundation for the Development of International Law in Asia (DILA). It is the first publication of its kind edited by a team of leading international law scholars from across Asia. The Yearbook provides a forum for the publication of articles in the field of international law, and other Asian international law topics, written by experts from the region and elsewhere. Its aim is twofold: to promote international law in Asia, and to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues. Each volume of the Yearbook contains articles and shorter notes; a section on State practice; an overview of Asian states participation in multilateral treaties; succinct analysis of recent international legal developments in Asia; an agora section devoted to critical perspectives on international law issues; surveys of the activities of international organizations of special relevance to Asia; and book review, bibliography and documents sections. This volume offers Asian perspectives on topics including: treaty-making power in China; the crime of aggression, illegal fishing and the destruction of environment in armed conflicts.
