

The Blue Sapphire

Fingering the softly curved ends, Jeanette wished she had never cut it, but then if she had not tried to please Brad by cutting it, she would never have realized how much she liked the longer style...or the girl she used to be--young, naive, believing fairy tales came true. They didn't. She knew that now. Even a fairy princess had choices, but it was all so much easier in stories.> There are problems at home, at college, and with relationships gone awry, leaving Jeanette searching for answers. As two different young men vie for her future, will Jeanette discover the true meaning of faithfulness in the gift of a blue sapphire?
