

## The Real Life Cheat Code

Have you ever wondered why some people seem to get everything they want while others struggle, work hard and do what they're told only to end up frustrated with success? Are they cheating? Is cheating wrong if everybody gets exactly what they want? For the first time, serial entrepreneur and maverick, Nathan Jurewicz reveals his Real Life Cheat Code, which are strategies and tactics that he has found can be applied universally to get what you want by understanding social dynamics in a way that few others do. For Jurewicz, a cheat-code is simply a shortcut to a desired outcome. If you've ever played Nintendo in the 90s you'll recognize the cheat code on the cover. Just as entering that code into Nintendo game systems used to give you unlimited lives and the ability to beat any game, you'll be able to use Nathan's advice to get what you want in life by understanding how social dynamics work, how to persuade others and easily craft the life you want while giving others what they want. Nathan's cheat-code can't give you unlimited lives, but it can make the one life you have go much smoother and be more rewarding while helping others get what they want.
