

Dark Of The Gods

Whether you are meeting the Kencyr Jame for the first time or reawakening an old friendship, Dark of the Gods is the place to start. Dark of the Gods is an omnibus collection of P. C. Hodgells first two books God Stalk and Dark of the Moon, along with her short story Bones, which takes place between the two novels. Jame is a Kencyrath, the chosen people of the Three-Faced God, who fights the demonic entity called Perimal Darkling. At the same time she fights an internal battle for her honor, because three thousand years ago the leader of the Kencyrath betrayed his people to the Darkness for his own immortality. She also must find her ten year older twin brother Tori and return to him the sword and ring of their father. If that is not enough, she has to kill a god, resurrect a god, stand before the rathorns, wear the cloak of living snakes, and visit a council room ablaze with stained glass.
