

Shadowing: A Henchmans Tale (Moonblind Book 1)

The moon has not changed in the fifty years of the dark lord Magnas rule but everything else has. All too often, the servants of Dark Overlords are dispatched with a lazy flick of the heroes sword. But in Shadowing, the job benefits of fire, mayhem, and shapeshifting almost make up for it. In between burning down villages, the minions primary directive is taking out heroes. When a man in golden armor and his faithful companions sneak across the border on a quest to assassinate the Dark Lord Magna, long live the Magna, its up to the Shadows to cut his quest short. As always, things do not go quite according to plan, and one henchman ends up lone-wolfing it across the permafrost lands, following the stench of valor. A story of sword and sorcery, tooth and claw, and wyvern wing. Book One of Moonblind.
