WORKING FOR A GENIUS: PART 1 THE NEW MOON ROCKETS

When two high-school students, Gordo and Darwin, sneak into the laboratory of the mysterious scientist Jonas Masterton in order to borrow one of his inventions-to use it on a date with a beautiful girl-they accidentally discover a basement full of top-secret documents concerning black rockets that are launched every month from modified nuclear silos towards the dark side of the Moon They soon find out that Doctor Masterton is planning to steal one of those rockets to get to the dark side of the Moon. But what they dont know is that they themselves are a part of the plan
