

101 Questions that will Change Your Life: Achieve the Success you Desire (Success Book Series 2)

Success can be achieved through some defining moments in our life. 101 Questions takes you on a journey of empowerment. Some easy questions, some hard questions—all are necessary for transformation in your life. 101 Questions that will change your life is 101 questions that will get you thinking about your past, present and future. Achieve the level of Success you desire by answering these questions as honestly as possible. We all want to be successful yet we feel we have so far to go. We read all the self-help books we can find, but nothing changes. The reason for this is simple. We haven't asked the right questions. We haven't looked within ourselves to work on ourselves. How many self-improvement books have you read and thought WOW that was a great book? Only to find a week later you haven't taken any action on what you read. Success is a journey not a destination. It requires we constantly look for ways to be better as well as identify gaps in our performance from where we are to where we want to be. Life is complicated. We should be looking for deeper meaning. Self-Awareness will help us identify key areas needing attention. There are areas in everyone's life that need tweaks and adjustments that will help us achieve the success we desire. While success means something different to us all, we tend to deal with the similar variables in our life. We often blame others, when in reality we hold the power in our hands to change the direction of our life sometimes literally overnight. Self-Awareness is vital to everyone's success. We need to look for our strengths, weaknesses, successes, failures, values, etc. If we aren't growing, we are dying. We need to evaluate our current situation inside and out to determine the next steps to take in our life. It's time to ask the hard questions, are you ready? If you are ready to go to the next level in your life, buy this book.
