

Filial Piety: The Dry Cleaners Daughter

It seemed that every decision she made became a challenge. Will she follow her dreams or choose to remain within the mores of society? Hanna is the youngest sibling of a Korean working couple. Two older sisters and a brother complete the family whose parents suddenly think they are entering old age and wonder who will take care of them under the Filial Piety custom which has prevailed for centuries. But Hanna is a beauty who seeks to make her own way in a modern society. Though desiring romance and a love affair, her situation always changes, thrusting her life into and out of constant disorder. She is on a perpetual roller coaster when unexpected events unfold.
