

Spy Games: Trained For Seduction

Emma Walters didnt choose to be a spy, but when her crazy father was caught selling bombs to the wrong people, she was given a choice--become a spy or rot in jail. Her exciting new life as agent Kate Wells becomes more so when she discovers her new boss is the agent--undercover and investigating her father at the time--who took her to third base. Emma is already half in love with the dark and dangerous Chase Sanders. Kate wants nothing more than for him to finish what he started, but hes the devil incarnate. And one doesnt make deals or fall in love with the devil.If someone had told Chase hed fall in love with a certain virgin when he was on his last mission, he would have shot them dead, sniper style. She was nothing more than collateral damage, damn it. But watching the sexy new spy morph into a bombshell killing machine is too much to bear. So when the powers that be command him to train her in the art of seduction for her first--and possibly last--mission, hes scared witless. Making love to Kate means preparing her for sex with another man. Somehow, Chase has to find a way to get Kate in--and out--of her mission without dying. And without falling in love.
