

Where Serpents Lie

Do you dare to look Where Serpents Lie? He takes them from their beds at night and releases them unharmed within a day--dressed like little angels with a piece of snakeskin tucked into the folds of their gowns as a memento. They are blindfolded and gagged throughout the ordeal, so they cannot describe their captor--nor do they know what happened while they were in his care. (Thank God.) Terry Naughton, head of Orange Countys Crimes Against Youth unit, faces the challenge of a lifetime when children are being kidnapped but released--and the people of Southern California are terrified for their safety. The cops dont know what the criminal wants--but they do know that his brand of psychotic behavior always escalates in scale. Will the next child never come back?
